Garry is a specialist in occupational health and safety law and practice with over 30 years of extensive industry knowledge and experience. His work on fatality elimination has been referenced by the West Australian parliament in developing the new workplace health and safety laws.

As a qualified lead auditor and a respected trainer with operational experience, Garry is uniquely placed to guide employers in developing best practice workplaces and cultures to minimise risk and maximise productivity. Coupled with his legal knowledge, Garry delivers practical advice that is cost effective and tailored specifically to meet our clients' needs.
